

Our Mission is "to provide a safe and enjoyable equine experience for children and adults with physical, mental, and emotional disabilities and encouraging each rider to develop independent skills at his/her own level of ability."

Since 1993, Horses with H.E.A.R.T. has served those with disabilities in Yavapai County, Arizona. In 2008, we provided 236 individuals of all ages with a therapeutic equine experience - grooming, leading and/or riding.

We invite you to become involved or support HwH, the place where disabilities become possibilities. These possibilities include an autistic child unclenching his fist for the first time in order to pet his horse; a paraplegic who is finally able to hoist herself onto a horse; and a non-verbal child talking for the first time - giving his horse the command to "walk-on". These are profound moments all caused by the therapeutic relationship between the horse and rider.

Horse Hair Table Bowl

by Joyce Nelson*

18"x15" with copper leafing
value \$365.00

**Represented by major galleries*

The Spirit of the Horses with H.E.A.R.T. is captured when Joyce used the mane and tail hair from the horses in the program and manipulates them onto the red-hot clay shaped bowl. A spontaneous response from the singed hair, lets the carbon smoke follow the direction of the wind, while casting black designs that are shadowed with smoke. The table bowl is highlighted with copper and gold leafing.
